

Curriculum Vitae

Surname: FEDOTOV
First name: Alexander
Date of Birth: February 7, 1942
Place of Birth: Volgograd (Russia)
Sitizenship: Republic of BELARUS
Highest Degree: Doctor of Science (Physics and Mathematics),
Title: Chief-Reseacheer
Institute for Nuclear Problems of
Belarusian State University
Bobruiskaya str. 11, 220006 Minsk
Rep. of BELARUS
tel. 375-17-3704563
mobile 375-29-6277495
e-mail: fedotov@bsu.by
Akf1942@gmail.com

Business contacts: Phone: 375 - 17-2095425
Fax: 375 - 17-2095445
Email: fedotov@bsu.by
AlexanderFedotov@newmail.ru

Education:

1. Since 1964 – Master of Physics, Graduated Department of Solid State Physics and Semiconductors of Belarusian State University.
2. 1964 -1966, Post-graduate student of Department of Solid State Physica and Semiconductors of Belarusian State University.

Carrier/Employment:

1. 1964 - MS degree and Diploma in Physics from the Faculty of Physics of Belarusian State University, Belarus (MS thesis “Investigation of electrical properties of Bithmuth thin layers”)
2. Since 1966 to 1970 – Engineer and Senior Engineer in the Institute of Solids and Semiconductor Physics of Academy of Sciences of Belarus.
3. Since 1971 to 1980 - Researcher in the Institute of Solids and Semiconductor Physics of Academy of Sciences of Belarus.

4. 1973 - researcher in the Department of Applied Physics of Technical University of Vienna (Austria)
5. 1974 - PhD degree in Physics and Mathematics at the Institute of Solid State and Semiconductor Physics of the National Academy of Sciences of Belarus (PhD thesis "Structural, electrical and superconducting properties of Nb-V-Cr alloys")
6. Since 1980 to 1981 - Senior Researcher in the Department of Semiconductor Physics of Belarusian State University.
7. Since 1981 to 1993 - Associated Professor of the Department of Semiconductor Physics of Belarusian State University.
8. Since 1983 to 1996 - vice-dean on Science of Faculty of Physics of Belarusian State University.
9. 1988 - researcher in the Department of Semiconductor Physics of Lanzhou University (Lanzhou, China).
10. 1994 - DSc degree in Physics and Mathematics at the Belarusian State University, Belarus (DSc thesis "Carrier transport in inhomogeneous crystals with extended defects near metal-nonmetal transition")
11. Since 1994 to 1997 - Professor of Department of Semiconductor Physics of Belarusian State University.
12. Since 1997 to 2014 - Head of Chair, Chair of Energy Physics of Belarusian State University.
13. Since 2014 to 2018 - Professor of Chair, Chair of Energy Physics of Belarusian State University.
14. Since 2018 up to now - Chief-Researcher, Institute for Nuclear Problems of Belarusian State University

Specialization:

- (a) *Main field*: Nanomaterials and nanostructures.
- (b) *Other fields*: Solid State Physics, Nanocomposites, Nanodevices, Semiconductors, Photovoltaics, Thermoelectric materials, Hydrogen in Silicon Materials,.
- (c) *Current research interests*: Nanomaterials and Nanostructures, Magnetic nanocomposites, Solar cells and Photodetectors, Template-assisted nanostructures, Solar Cells Materials, Carrier Transport in Disordered and Heterogeneous Solids, Interface and Surface, Thermoelectric Materials, Graphene and Related Materials.

Honours, Awards, Fellowships, Memberships:

1. Since 1973 - Philosophy Doctor

2. Since 1981 - Professor-associate
 3. Since 1983 - Member of Scientific Council of Faculty of Physics of Belarusian State University
 4. Since 1994 – Doctor of Science (Physics and Mathematics)
 5. Since 1994 - Expert of Ministry of Education of Belarus.
 6. Since 1995 – Professor of Physics
 7. Since 1995 - Member of Physical Society of Belarus
 8. Since 1995 to 2014 - Member of Scientific Council of Belarusian State University.
 9. Since 1996 up to now – Vice-Chairman and Scientific Secretary of Scientific Council on Defences of PhD and DSc Dissertstions.
10. Since 1996 up to now – Expert-evaluator of State Commettee on Science and Technology of Belarus.
11. Since 1996 up to now – Expert-evaluator of Fundamental Science Foundation of Belarus.
12. 1995 - 2002 - Expert-evaluator of INTAS Program
13. 1996 - 2004 - Coordinator of the Fundamental Research Program of Ministry of Education of Belarus on the Probleme "Low-dimensional systems".
14. 2004 -2015 – So-Coordinator of the National Complex Program of Belarus “Nanomaterials and Nanotechnology” (Section of Physics and Chemistry of Nanostructured Materials).
15. 2007 – 2002 - Member of the Joint Scientific Council of Belarus on Material Science.

CURRENT RESEARCH ACTIVITY:

- Semiconductor Physics and Technology (Solar Cells and Photodetectors, Extended Defects in Semiconductors, Semiconductor Materials for Solar Cells, Hydrogen in Semiconductor Materials, Interface and Surface)
- Solid State Physics (Carrier Transport in Disordered and Inhomogeneous Solids, Diffusion in Solids)
- Ihomogeneous and Heterogeneous Condenced Media (Nanomaterials, Nanostructures, Nanocomposites, Polycrystalline Materials, Template-assisted nanostructures, Graphene and Related 2D Materials, Thermoelectric Ceramics)

PROFESSIONAL ACHIEVEMENTS:

Professor title, 3 monogrphy, 9 Proceedings (as Editor), 9 textbooks, more than 300 papers published, 9 patents

PARTICIPATION IN THE NATIONAL AND INTERNATIONAL RESEARCH PROJECTS (DURING THE LAST TEN YEARS)

1. “Study of nanostructures formation during atomic hydrogen interaction with a silicon surface” (Research Program “Nanomaterials and Nanotechnologies” of Republic of Belarus, contract No 6-08, 2006 – 2010).

2. "Formation of buried layers of silicides and dielectrics in silicon" (Research Program "Nanomaterials and Nanotechnologies" of Republic of Belarus, contract No 6-10, 2006 – 2010).
3. «Phase composition, defect structure and properties of iron-aluminum composites» (Contract No Ф07М-108 with Belarusian Republican Foundation for Fundamental Research, 2007-2009).
4. «Development of a new low-temperature method of formation of dielectric silicon oxide nanolayers», (Contract No Т08-157 with Belarusian Republican Foundation for Fundamental Research, 2008 – 2010).
5. «Regularities of the hydrogenation influence on transformation of the defect subsystem, electrical, optical and photoelectrical properties of Cd(S,Se) and Cu(In,Ga)(S,Se)₂ thin films» (Contract No Ф09К-041 with Belarusian Republican Foundation for Fundamental Research, 2009 – 2011).
6. «Influence of the synthesis regimes on optical properties of Cu(In,Ga)(S,Se)₂ films for solar cells» (Contract No Ф09М-081 with Belarusian Republican Foundation for Fundamental Research, 2009 – 2011).
7. «Study of influence of electro- and photoactive dopants on physical properties and phase transitions in the A^{III}B^{IV}C₂^{VI} crystals» (Contract No Ф09Аз-006 with Belarusian Republican Foundation for Fundamental Research, 2009 – 2011).
8. «Spintronic "metal-dielectric" composites with tunable magnetotransport properties» (Contract No Ф10ГКНТ-001 with Belarusian Republican Foundation for Fundamental Research, 2010 – 2012).
9. «Nanocomposites with "core-shell" ferromagnetic nanoparticles in dielectric matrixes» (Contract No Ф10Р-079 with Belarusian Republican Foundation for Fundamental Research, 2010 – 2012).
10. «Functional ensembles of granular composite columnar nanostructures created on the basis of "dielectric/GaAs" porous templates» (Contract No Ф11Д-005 with Belarusian Republican Foundation for Fundamental Research, 2011 – 2012).
11. «Development of pilot space of automated measuring complex for testing of nanostructured thermoelectric materials, and experimental technological process of formation and modification of nanostructured diamond-like carbon films» (Belarusian – Russian research program «Development of nanotechnologies for creation of materials, devices and systems of space technique and their adaptation to other branches of technique and mass production», Contract No 1.1.1, 2009 – 2012).
12. «Development and investigation of nanogranular "metal-dielectric" composite materials with inductive-like impedance» (Research Program "Composite materials" of Republic of Belarus, contract No 2.04, 2009 - 2011) »
13. «Simulation of processes in space solar cells for optimization of their parameters» (Research Program "Space Investigations" of Republic of Belarus, contract No 26, 2010 – 2012).
14. «To develop and produce equipment for the solar cells testing and to test Cu(In,Ga)(Se,S)₂ thin films and solar cells on their basis» (Belarusian – Russian research program «Space – New Technologies» («Cosmos – NT»), contract No 3.3, 2008 – 2011).
15. «Investigation of electromagnetic processes in nanostructures and composite materials for creation on their basis of new elements for opto- and radioelectronics» (Research Program "Electronics and Photonics" of Republic of Belarus, contract No 1.2.05, 2011 – 2013).
16. «Development of physical and chemical bases of technologies for template-based synthesis of composite and multilayered "metal-nonmetal" nanostructures for creation of new generation of magnetochemical devices» (Research Program "Nanomaterials and nanotechnologies" of Republic of Belarus, contract No 2.4.08, 2011 – 2013).
17. «Mechanisms of charge transfer and magnetotransport in arrays of carbon nanotubes and magnetic nanofibers in porous silicon» (Research Program "Nanomaterials and nanotechnologies" of Republic of Belarus, contract No 2.4.12.1, 2011 – 2013).

18. «Magnetoresistive and thermoelectric properties of nanogranular composite films» (Research Program “Crystalline and molecular structures” of Republic of Belarus, contract No 1.23.1, 2011 – 2013).
19. «Development of Training Network for Improving Education in Energy Saving» (TEMPUS IV, Joint Project 530379-TEMPUS-1-2012-1-LVTEMPUS-JPCR, 2012 - 2015).
20. “Improvement of master-level education in the field of physical sciences in Belorussian universities” (Joint Project-609557-EPP-1-2019-1-LV-EPPKA2-CBHE-JP-Physics, 2016-2019)
21. “Development of practically-oriented student-centred education in the field of modelling of Cyber-Physical Systems” (Joint Project-609557-EPP-1-2019-1-LV-EPPKA2-CBHE-JP, 2019-2022)

SELECTED PAPERS FOR LAST 20 YEARS:

1. N. Kamaev, S.V. Golod, E.M. Skok, A. Fedotov, A. Mazanik. Characterization of Interfacial States at Silicon Bicrystals. Solid State Phenomena, 82-84 (2002) p. 801-806
2. A.Fedotov, A.Mazanik, A.Ulyashin. Electrical activity of grain boundaries in silicon bicrystals and its modification by hydrogen plasma treatment. Solar Energy Materials and Solar Cells, 72 (2002) p. 589-595
